Beech Parish Council June 2026

Beech Parish Speedwatch Report

Introduction

Beech Parish Council in 2021 completed its Neighbourhood plan. As part of the infrastructure section as part of the public consultation on that plan, the parish council noted many complaints about speeding through the village.

Beech had to abandon its CSW scheme because the police thought it was too dangerous to operate.

The Parish council then decided two things:

- I. We would evaluate alternate options to CSW.
- II. We would conduct in conjunction with Hampshire Highways a speed and volume survey of traffic through the village

We opted to invest in better effective signage, two Speed Indicator Devices (Evocom), and 3 Surveillance Speed Cameras (ASW). We used those, in conjunction with the Hampshire County Highways (HCH) team, to check how well they recorded the speeding traffic. The cameras and HCH were found to capture a similar number of vehicles travelling over 36mph.

(PS Note our Surveillance Cameras only records vehicles speeding, unlike Police Speeding Cameras which record all passing vehicles irrespective of speed).

After the cameras were installed and properly sign posted, we noted that the number of vehicles speeding through the SID position at Mid Village at speeds over 35/40/50 mph were reduced by 35%, 55% and 68% respectively. That reducing trend was generally maintained when the trial was repeated some 2 weeks later. Some 4 years later now that reduction in speeding vehicles has been maintained.

We have consistently asked the Road Policing unit over the last 4 years for 2 things

- 1. 10 CSW letters a month to the most persistent speedster.**
- 2. A discussion with the CPS as to whether we can use the average speed recorded between the surveillance cameras in Beech as a basis for raising fines to the vehicles exceeding the average speed through the village.**

Beech Parish Council June 2026

Beech Parish Speedwatch Report

Background

In Beech we are fortunate to have 6 AutoSpeedWatch Cameras monitoring traffic. The cameras give us invaluable intelligence about speeding traffic through our village.

Our sincere thanks for the volunteers who verify the camera images.

Together with our 'Evocom' Speed Indicator Devices we now monitor the effectiveness of the signage and identify the most frequent offenders.

Our Challenge is how to address these frequent offenders and stop their anti-social behaviour. Despite our success in **addressing the volume of offenses down 85% over the last 4 years**, leaving us with 3% of regular speedsters in Beech, we continue to work diligently to address the issue of a few drivers who behave totally anti-socially by abusing the road through our village.

We do however desperately need help from the Hampshire Police force to address these frequent speedsters.

This report gives a monthly update of the intelligence we have gathered.

- **The Evocom road site speed indicator device** relies on single point radar and is **accurate to 1%**. Drivers can see the display mid village up to 100 yards away. No complaints were received because of inaccurate speeds displayed.
- **THE ASW system** relies on similar radar technology as the EVOCOM device and **is also calibrated to be accurate to within 1%**
- **Radar technology is subject to very occasional interference from vehicles driving in the opposite direction, other moving objects such as birds and debris, and other radar devices in the vicinity. That is why we only report frequent speedsters.**
- **The average speed is determined using the calculation $\text{speed} = \text{distance over time}$. It does not rely on the speed measurement within the ASW device as:**
 1. THE DISTANCE IS MEASURED USING GPS AND VERIFIED BY A SURVEYOR'S WHEEL MEASUREMENT.
 2. TIME IS MEASURED USING GPS, VERIFIED AT CAMERA START UP WITH USING A NETWORK TIME PROTOCOL SERVER SO IS ACCURATE TO 1 SEC.
 3. AVERAGE SPEEDS REPORTED ARE ACCOMPAGNIED BY A MARGIN OF ERROR RANGE allowing for vehicle position and the potential 1sec timing error.

Beech Parish Council June 2026

Beech Parish Speedwatch Report

Actions this month:

- Hampshire Road Policing (HRP) Unit have been sent this months report.
- The Hampshire Association of Local Councils has invited a Beech councillor to sit on their Road Safety Partnership subcommittee. Awaiting a formal invitation.
- Our Local Police support our efforts. Our local “Bobby” has agreed to visit 1 repeat offender a month.
So far, no feedback has been received.
- We continue to support the ASW cameras in EHDC are rolling out.
- We continue acting as part of the Bentworth CSW group, as Hampshire Police has not given permission for a CSW group to operate in Beech, *because the road is too dangerous.*
- The Beech CSW group have taken over the management of the Alton TC ASW cameras.
- We continue running a Facebook page to highlight the danger of travelling through Beech at speed.
Please follow us <https://www.facebook.com/profile.php?id=61585601172595>

Beech Parish Speedwatch Report

Police now using ASW data to schedule Speed Detection Assets

We are pleased to report that data from the Community Speedwatch mounted devices is now being used to enhance the AI scheduling system that Hampshire Road Police use to make deployment of their mobile units more efficient.

The June data below shows the data sent to the police.

Location	Detail	Day	Hour's data from (GMT)	No Of Weighted Offenders
Beech East NEB v2	7 Medstead Road	Tuesday	07:00:00	169
Beech East NEB v2	7 Medstead Road	Wednesday	18:00:00	196
Beech East NEB v2	7 Medstead Road	Thursday	07:00:00	154
Beech East NEB v2	7 Medstead Road	Friday	09:00:00	237
Beech East NEB v2	7 Medstead Road	Friday	16:00:00	171
Beech East NEB v2	7 Medstead Road	Saturday	10:00:00	162

Clearly with the added data the police will be able to focus their resources on the times when people who drive regularly at excessive speeds drive by. Because of Police Procedures they can not advise us what action they have taken....

But the following top 5 offenders have now not been seen in the last month

M a k e	Model	Colour	Times Seen speeding in Beech since 01/06/2025	Top Recorded Speed	Times Seen speeding in Beech since 01/06/2026	Date of last offense
FORD	RANGER	BLUE	265	49	9	11/06/2026
LAND ROVER	DISCOVERY	GREY	243	63	9	28/06/2026
VOLVO	XC60	GREY	165	55	1	10/06/2026

The data shows that this initiative will ensure that more of the regular speeders are caught.

Beech Parish Council June 2026

Beech Parish Speedwatch Report

Number of offenses by frequent speedsters through the village as a %age of total offenses.

The table below shows the number of offenses by number of vehicles speeding over 35mph over the last 12 months. So, **just 7** vehicles accounted for 5% of offenses, **between them 1576 offenses** in total. They comprised **0.49 %** of journeys through the village.

Just **108** vehicles accounted for **33%** of the speeding offenses over the last 12 months... they accounted for 9732 offenses YTD!

Number of Vehicles as a %age of Offenses YTD					
Both Directions CSW+ Offenses (6 Locations)					
No Off Speeding Vehicles YTD	Avg Number of Offenses last 12 Mths per Vehicle	% of Total offenses	No of ASW Offenses last 12 months these vehicles	% of all transits these vehicles	Jun-26
7	225	5%	1576	0.49%	
17	180	10%	3061	0.96%	
45	130	20%	5861	1.84%	
70	109	25%	7649	2.40%	
108	90	33%	9732	3.05%	
280	54	50%	15162	4.75%	
5848	58	100%	14382	4.51%	
No of Vehicle Transits		No of Offenses >36mph	%age offending	Mid Village only	
319066		16529	5.18%	SID June 2026 YTD 1 location	
94736		19511	20.60%	SID 2021 Dec 10 Mths	
113683		23413	20.60%	Anualized 2021	

Based on this data, if we can address just 120 vehicles in each year, we will have addressed 33% of the speedsters.

MORE IMPORTANTLY WE WOULD ADDRESS THE MOST SERIOUS FREQUENT OFFENDING SPEEDSTERS IN BEECH...

That could be achieved by posting just 10 Community Speed Watch plus (CSW+) letters a month.

Beech Parish Council June 2026

a) Ranking Highlighted in RED are worse than Last Month's ranking.											
c) Highlighted in Pink have been written to by the Parish Clerk more than twice.											
b) Highlighted in Brown also feature in the top 10 AVG speed YTD Offenders.											

Good to see the old regulars are no longer plaguing us. A big thank you to those who addressed this issue.

To attain the speeds shown above the drivers in question must be what they would class “skilled” drivers.

However, they do not appear to be aware that just 1 incident at speed, could leave a family grieving and they themselves would have to live with the consequences for the rest of their lives...

Beech Parish Council June 2026

Beech Parish Speedwatch Report

TOP 10 Regularly Exceeding Average Speed by Frequency in June 2026

AVG Speed Ranking YTD	Ranking this Month	VRN	Make	Model	Vehicle Colour	No of AVG Speed Offenses in May 2026	Highest Average Speed	MAX Error Margin (±mph)

29	10		CITROEN	E-C3 MAX	WHITE	5	36.7	1.0
a) Ranking Highlighted in RED are those worse this MTH than YTD in ranking.								
b) Highlighted in Brown also feature in the top 20 single point speed Offenders.								

NOTE: To appear on this list a vehicle must exceed 35mph through 2 camera points and averaged more than 30 mph in between those 2 points.

*We cannot emphasise how heartening it is to see that old regular speedsters are disappearing from the list.
A big thank you to whoever has influenced that.*

- The distances for Average Speeds have been measured using a surveyor's measuring wheel and verified by GPS, the smaller of the 2 distances taken for the calculation.
- GPS Timing is verified via a Network Time Protocol server so accurate to the nearest second.
- **Speeds** calculated from distance/time **are scientifically accurate** within error margins of 1.0% at 30 mph.
- Highlighted in **Yellow** are the repeat incidents where the vehicle exceeded average speed in all 3 sectors monitored in the village

a) Ranking Highlighted in RED are worse than last month's YTD ranking.										
b) Highlighted in Brown also feature in the top 10 AVG speed Offenders.										
c) Highlighted in Pink have been written to by the Parish Clerk more than twice.										

Speeding is a habit... a dangerously bad habit... it caused around 1600 deaths almost 30,000 seriously injures in 2025 in England and Wales ...

YTD Single point offenses

The top 10 speedsters averaged a top speed recorded of 51 mph in a 30-mph zone!
On the plus side of the 5818 vehicles that have offended YTD, 3191 offended just once!

The parish council has authorised the clerk to write to frequently offending commercial vehicles identified by their livery. To date we have written to 68 vehicle owners. There have been **no new commercial vehicles** in June which have recorded more than 10 offenses in Beech in the last 12 months. Clerk has written 2 second letters to the relevant vehicle owners. The Parish Council has received no feedback on those reported to the Police keep speeding.

We have received no feedback from the police on whether they took any further action on reported vehicles. *Note: As opposed to Private unmarked vehicles, commercial vehicles with livery are not protected from publication under the GDPR legislation.*

This month 11 Liveried Vehicles were detected speeding in Beech, 4 have persisted in offending.

In total the Parish council has written to 74 companies since the scheme was implemented, clearly the letters are having a positive effect on speeding offenses in Beech,

Beech Parish Council June 2026

Beech Parish Speedwatch Report

as we see there are relatively few that re-offend. Just 13 this month.

The good news is that the **CSW+++** approach continues to be effective in controlling drivers **who are not addicted to speeding**, though we are getting to a point where familiarity breeds contempt.

Regrettably the data shows that **addicted persistent speedsters, who are also the fastest drivers**, remain the drivers who commit the most offenses month in month out...

Possibly with police help we have addressed some of these drivers ...

Beech Parish Council June 2026

Beech Parish Speedwatch Report

Conclusions

The data recorded over the last 4 years and specifically that for the last year detailed in this report clearly demonstrates the impact of the Parish Council's initiative on speeding in Beech.

A demonstrable significant reduction of vehicle speeds, with speeding vehicles reduced from 18% of those transiting the village to 3%, has enabled Hampshire Highways to permit the installation of an on-road footpath and highways has recently permitted the erection of a 20-mph limit in Beech. The cost associated with the 20mph zone has delayed its implementation.

As the data demonstrates the village continues to be plagued by a few vehicles who are persistent in speeding through Beech (see Item 5). These persistent offenders can only be addressed with the help of the police.

**3191 out of 5848 offending vehicles have offended just the once in the last 12 months!
Roadside Community Speed Watch more likely catches one of the 3191...
and therefor conventual CSW ops and single point Police Speed Cameras likely miss the frequent
speedsters that make rural village roads dangerous.**

Beech Parish Council has consistently asked the Road Policing unit over the last 4 years for 2 things namely:

1. 10 CSW letters a month to the most persistent speedster.
2. A discussion with the CPS as to whether we can use the average speed recorded between the surveillance cameras in Beech as a basis for raising fines to the vehicles exceeding the average speed through the village.
